Risk analysis and control measures in respect of derivative investments held in the Reporting Period (including but not limited to market risk, liquidity risk, credit risk, operational risk,	The Company's conduction of hedging business is not aimed at speculation, but mainly to effectively avoid the impact of raw material price fluctuation on the Company. However, there will be certain risks: 1. Price fluctuation risk: price fluctuation risk may be generated when the futures market changes greatly, resulting in transaction losses; 2. Capital risk: capital risk may be correspondingly brought because the futures trading adopts margin and marking-to-market system; 3. Internal control risk: there may be risks due to imperfect internal control system for the high expertise and complexity of futures trading; 4. Technical risk: there may be technical risks due to incomplete computer systems. The Company adopts following risk control measures: 1. Matching				

legal risk, etc.)	the hedging business with the Company's production and operation so as to maximally reduce the price fluctuation risk; 2. The Company will reasonably dispatch its own funds for hedging business, strictly control the hedging fund scale and reasonably plan and use margins; 3. <i>Management System for Commodity Futures Trading</i> is formulated based on actual situation of the Company and pursuant to governing stipulations of <i>Guidelines for Standard Operation of Companies Listed in Shenzhen Stock Exchange</i> which have made clearly stipulations about the amount, variety scope, approval authority, internal approval procedures, responsible departments and persons, information isolation measures, internal risk report and related solution process, information disclosure, etc. regarding hedging business. The Company will strictly control all sectors in accordance with <i>Management System for Commodity Futures Trading</i> ; 4. Establishing qualified systems for transaction, communication and information services so as to guarantee the normal operation of the transaction system and smooth proceeding of transactions. When a wrong order occurs, corresponding measures should be timely taken to reduce losses.
Changes in market prices or fair value of derivative investments in the Reporting Period (fair value analysis should include measurement method and related assumptions and parameters)	The value of the Company's future contracts changed according to the contract prices declared by the future exchange, which were broadly representative. And the fair value of the Company's future contracts was executed in strict compliance with the future exchange's settlement methods.
Significant changes in accounting policies and specific accounting principles adopted for derivative investments in the Reporting Period compared to the last reporting period	None
Opinion of independent directors on derivative investments and risk control	<p>1. Opinion of independent directors on the Proposal on 2020 Futures Hedging Plan of Jingliang (Tianjin) Grain and Oil Industry Co., Ltd. and Beijing Jingliang Oils Co., Ltd.: after check, the Company carried out the business of futures hedging based on normal production and management, relying on specific business. Under the premise of ensuring normal production and management, the Company used futures hedging tools to avoid the adverse impacts on the Company's operation from the large price fluctuation of raw materials and products, which is not detrimental to the interests of the Company and all other shareholders, especially minority shareholders. At the same time, the Company formulated relevant systems, and specific operating instructions for the business of futures hedging through strengthening internal control and implementing risk prevention measures. It is agreed that the Company and its subsidiaries will continue to conduct futures hedging business according to the relevant regulations.</p> <p>2. Opinion of independent directors on the Proposal on Conducting Foreign Exchange Derivatives Trading Business by the Company and Majority-owned Subsidiaries: after check, the relevant decision-making procedures for the Company and its majority-owned subsidiaries to conduct foreign exchange derivatives trading business are in compliance with relevant national laws, regulations and the governing provisions of the <i>Articles of Association</i> after verification. Based on</p>

	normal production and operation, the Company uses foreign exchange derivatives instruments to reduce exchange rate risks and finance costs, and control business risks. There is no harm to the interests of the Company and all other shareholders, especially minority shareholders. It is agreed that the Company and its majority-owned subsidiaries will conduct foreign exchange derivative trading business within the consideration amount, and submit to the general meeting for deliberation.
