3. Operation model

(1) Purchase model

The Company has established a supply chain management centre which adopts a supply chain management model of "centralised procurement by the Group, source as the first priority, hierarchical separation and one-vote veto". Through continuous improvement of the procurement information system, the Company has fully realised machine control management, and optimised the authorisation approval process, effectively standardising the procurement management system. Based on the needs of production bases, the Group integrates the resources of related parties and implements centralised procurement. The Company seeks sources and high-quality suppliers through industry exhibitions, on-site inspections and competitive factory research to strengthen procurement at source and reduce procurement costs; and introduces a supplier competition mechanism by establishing a three-level joint review mechanism for suppliers and implementing a system of eliminating substandard suppliers, so as to improve supply quality. Meanwhile, the Company actively cooperates with financial institutions and third parties in the supply chain financial business, and fully utilises the funds from contributing parties to lower procurement costs, deepen strategic cooperation and enhance supply chain competitiveness.

(2) Production model

The Company has committed itself to implementing a pulp and paper integration strategy. Adhering to the concept of "placing green development and environmental protection as its priority", the Company has actively promoted clean production and vigorously carried out energy conservation and emission reduction, aiming to be a resource-saving and environmentally friendly model enterprise. It is innovating an integrated use of resources and a circular industrial development mode, and an "ecological chain" featuring resources, products and recycled resources has been established. As for production process, the Company takes planned management as the focus and implements a hierarchical planned management model for the Group, the Company, factories and workshops. Its production volume is determined based on the sales, its production is arranged scientifically, and its inventories are under strict control. The Group has set up a production scheduling centre to monitor the operation of the production lines of each subsidiary around the clock on a real-time basis, so as to ensure normal production. It has actively built and promoted the MES management system, and realised the timely information transfer between the management and the production control unit through bridging the gap between the ERP and DCS systems.

(3) Marketing model

The Company has always adhered to the marketing concept of "Good faith, Win-Win and Sharing" while wholeheartedly serving its customers. The Company has a relatively mature sales network, and has set up specialised sales companies responsible for the development of domestic and overseas markets, product sales, and formulation of sales policies. The sales companies' management systems are divided into product lines, product companies, management areas, and branches to achieve matrix management. The sales companies are divided into product companies of cultural paper series, coated paper series, white cardboard series, electrostatic paper series, special paper series and household paper series according to product line. Each product company has its administrative district. A regional general manager is responsible for his/her administrative district, under which branch companies are set up. The chief representatives of the branch companies have full authority to deal with branch business.

The Company has implemented a three-level scheduling mechanism. Branch companies, administrative districts, and sales companies schedule task indicators daily to ensure the effective implementation of the plans. It sticks to a "four-level visit mechanism" to gain deep market insights and meet customer needs. Meanwhile, by leveraging its comprehensive information systems, the Company has realised It-based management. It has also established and improved the complaint handling system and customer satisfaction system to enhance the Company's marketing management level.

(4) R&D Mode

The Company is market-oriented, and innovation is it driving force. It highly values technological R&D, and has formed a variety of R&D modes such as independent R&D, technology introduction, and industry university-research cooperation. At present, the Company has a number of domestically leading innovative R&D platforms, including the national enterprise technology centre, the post-doctoral working station, the state certified CNAS pulp and paper testing centre, Shandong Pulp and Paper Making Engineering Lab and the Guangdong Pulp and Paper Production Technology Research Centre, which have enhanced its independent innovation capabilities. Meanwhile, on the basis of introducing internationally advanced pulp and paper production lines and

advanced technologies, the Company has made technological improvements and re-innovations, and established new standards for processes and product quality, forming distinctive core technologies. The Company also works hard on the following aspects: carrying out academic research with colleges and universities and R&D institutions such as Qilu University of Technology, Qingdao University of Science and Technology, Tianjin University of Science and Technology, and Institute of Chemical Industry of Forest Products of the Chinese Academy of Forestry, introducing, digesting and absorbing scientific research and innovation achievements, accelerating the industrialisation of new and high technologies, optimising product mix, and improving the competitiveness of its products in the market.

4. The position of the company in the industry during the reporting period

2021 was the first year for China to build a new development pattern. In the face of multiple challenges such as the complicated and severe international environment and sporadic and repeated local pandemic outbreaks, all regions and departments strictly implemented the decisions and arrangements made by the CPC Central Committee and the State Council, scientifically coordinated pandemic prevention and control and economic and social development. China's economy experienced sustained and stable recovery, and made new achievements in high-quality development, marking a good start for the 14th Five-Year Plan. As an important basic raw material industry closely related to the national economy and social development, the paper making industry, in the first half of 2021, improved its returns significantly due to the boost of upstream raw material costs, the recovery of downstream demand and the paper product price rise. Although the overall prosperity of the paper making industry was frustrated and the profit growth rate declined since the third quarter, the paper making industry in general maintained steady growth during the reporting period. According to the data of the National Bureau of Statistics, the paper making and paper product industrial enterprises above designated size realised total profit of RMB88.48 billion, representing a year-on-year increase of 6.9%.

Focusing on the principal business of pulp production and paper making, the Company has made a strategic layout in the whole industrial chain, and built three major product bases with Shouguang in the north, Huanggang in the middle and Zhanjiang in the south. It has become the first pulp and paper integration enterprise in China with basically balanced pulp and paper production capacity, and is ranked among the top 10 in the world in terms of paper and paperboard output, commanding a leading position in the industry. The Company attaches great importance to technology research and development and product service quality, continuously develops high-grade and high value-added products, leads the market direction, and becomes the enterprise with the largest and most complete product varieties in the paper making industry, with a leading market share for its principal products in China. During the reporting period, the Company continuously promoted high-quality development, winning over 20 awards which reflected the high recognition of the Company from all walks of life, including Top 500 Chinese Enterprises, Top 500 Manufacturers in the PRC, Fortune China 500, Top 10 Enterprises in the PRC Light Industry – Paper Sector, Shandong Province High-end Brand Continuous Cultivation Enterprise, Shandong Province Governor Quality Award Nomination Award, 2021 Shandong Province Science and Technology Leading Enterprise, "Top Ten Enterprises" of Shandong Paper Association.

In the future, the Company will remain true to its original aspiration and forge ahead, continue to focus on its principal business and strengthen the industry, and focus on the construction of Huanggang Chenming production base. It will give full play to the core advantages of its whole industrial chain layout, comprehensively improve the corporate management level and operation quality, and enhance the enterprise's ability to resist risks, so that the Company can achieve steady progress in economic benefits, have far-reaching development, and strive to build a world-class enterprise group with global competitiveness, making greater contributions to the development of the paper making industry!
